Shop Inventory Admin Tutorial
Purpose: Configure and maintain inventory data and users.

1) Sign in with your admin PIN at /lock.
2) Open Admin from the header menu.
3) Users: create users, assign roles, and set PINs.
4) Import: upload an Excel workbook with required sheets.
5) Validate: spot-check parts, locations, and quantities.
6) Monitor: review inventory moves and audit history.
7) Settings: update zones, categories, and AI config.

Tip: Use Drizzle Studio for direct data inspection when needed.
